

Nixorra

SOLUTION

BUSINESS INTELLIGENCE • AI CONSULTING • INTELLIGENT AUTOMATION

Turn Data Into Decisions. *Turn AI Potential Into Business Value.*

Modern AI-powered solutions for businesses that want clearer insights, faster decisions, and practical automation.

WHO WE ARE

Data, technology and AI — turned into *practical business outcomes*.

Nixorra Solution helps modern businesses turn data, technology, and artificial intelligence into practical business outcomes. We combine Business Intelligence, AI-powered analytics, AI consulting, automation, and custom solution development to help teams work smarter and make better decisions.

Our approach is **business-first**: we begin with the challenge, identify where technology can create measurable value, and design solutions that are practical, scalable, and aligned with real business workflows.

Our Vision

To make advanced data intelligence and AI accessible to every business—without unnecessary complexity.

Our Mission

To help organizations transform everyday business data and processes into clear insights, intelligent workflows, and actionable outcomes.

WHAT WE DO

Management
Reporting

NIXORRA BUSINESS INTELLIGENCE PLATFORM

Your Data. Your Charts. Your Insights.

A Business Intelligence platform designed for non-technical teams. Transform Excel and CSV data into interactive dashboards, presentation-ready visual stories, and AI-powered business reports.

Upload Excel or CSV

Move quickly from spreadsheets to business insight.

AI Visuals

Intelligent chart recommendations generated from your dataset.

Manual Visuals

Build dashboards with complete control over what to analyse.

Interactive BI Dashboards

Explore with filters and flexible chart views.

Visual Story & Presentation View

Communicate insights clearly in meetings.

AI Analyst Reports

Findings, opportunities, risks and recommended next steps.

Comparisons

Across periods, products, categories or segments.

Seasonality Detection

Distinguish real change from normal recurring cycles.

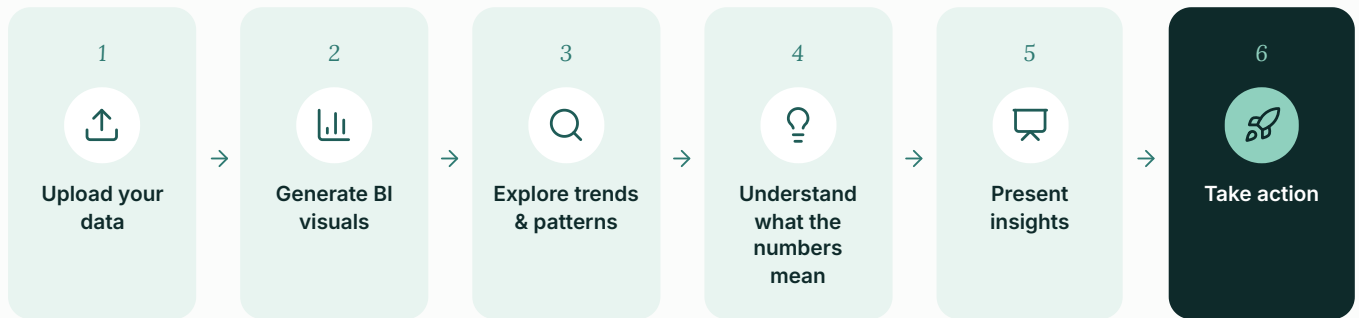

Export to PDF

Easy sharing with stakeholders.

HOW IT WORKS

From Data to Decision.

Six simple steps take you from a raw spreadsheet to a confident business decision
— no technical skills required.

“ Spend less time building charts and more time acting on what they tell you.

BUILT FOR TEAMS THAT NEED ANSWERS

Business Owners & Founders

Get a clear view of performance without spending hours in spreadsheets.

Analysts & Finance Teams

Reduce repetitive chart preparation and focus on validation and decision support.

Operations & Product Teams

Monitor KPIs and identify areas requiring attention.

Sales & Marketing Leaders

Understand performance, trends, channels, customers, and opportunities.

— AI CONSULTING

Turn AI potential into *practical business outcomes.*

Nixorra helps organizations identify, plan, validate, and implement AI opportunities that improve decision-making, automate repetitive work, and create measurable business value.

01

AI Strategy & Roadmap

Identify high-value AI opportunities and create a practical roadmap aligned with your business objectives, data, processes, and resources.

02

AI Agents

Build intelligent AI agents that support business tasks, streamline workflows, assist teams, and automate repeatable activities.

03

Business Process Automation

Identify repetitive processes that can be streamlined with AI and automation — reducing manual effort and improving consistency.

04

Custom AI Solutions

Design AI-powered solutions around your specific business processes, data, workflows, and operational requirements.

05

AI Proof of Concept

Validate an AI idea through a focused proof of concept before committing to a larger implementation.

06

AI-Powered Website Creation

Move from an idea to a professional web presence quickly with AI-assisted website creation built around your requirements.

OUR PRACTICAL AI ADOPTION APPROACH

Five steps from idea *to adoption.*

01

Understand

We understand your business objectives, challenges, processes, existing systems, and data.

02

Identify

We identify practical AI opportunities where technology can improve efficiency, insight, automation, or decision-making.

03

Design

We define the solution approach, required data, workflows, AI capabilities, and implementation roadmap.

04

Validate

Where appropriate, we build a proof of concept to test the idea and demonstrate potential business value.

05

Implement

We help move validated solutions toward production and practical adoption.

WHERE AI CAN CREATE BUSINESS VALUE

Sales & CRM

Customer analysis, opportunity identification, sales intelligence, and workflow support.

Marketing

Campaign analysis, customer insights, performance reporting, and opportunity discovery.

Finance

Reporting, financial analysis, forecasting workflows, and management visibility.

Operations

Process analysis, intelligent automation, and operational optimization.

Management Reporting

Transform raw business data into clear visual stories and AI-supported reports.

Not sure where to start?

We'll map your highest-value AI opportunities first.

— WHY NIXORRA

Six reasons teams *choose us*.

Business-first thinking

Start with the business problem, not the technology.

Practical AI adoption

Focus on realistic use cases that can be implemented and measured.

Data-driven decisions

Use existing business data to uncover trends, opportunities, and risks.

Scalable solutions

Design technology that can evolve with your organization.

Clear outcomes

Connect technology initiatives to meaningful business objectives.

Accessible intelligence

Make advanced analytics easier for business users and non-technical teams.

— SECURITY & DATA CONTROL

Designed with a security-minded workflow for business data.

Raw data stays out of AI. For its AI analytics workflow, Nixorra states that raw uploaded data is not sent to AI — AI receives calculated column summaries and chart totals instead.

You stay in control. Users can delete datasets from their account workflow.

— OUR PROMISE

We do not believe businesses need more technology for technology's sake. They need *better answers, clearer visibility, smarter processes*, and solutions that create measurable value.

Nixorra brings data, AI, and business thinking together to make that possible.

— LET'S BUILD WHAT'S NEXT

Have an AI idea, data challenge, reporting problem, or a process ready for automation?

Let's explore the opportunity together.
